---

HSPA relieves your sore muscles and tension, eliminating the stress of the day and promoting a deeper, more restful sleep.

The sleep. unique blend of air, water and heat makes lovia spa your best choice! It's not just a functional household item, it's stylish, beautiful design are also the important elements of your backyard/garden.

---

Communicating with family and friends in the most relaxing environment, enjoying the fun of the spa with friends, children at home.

## PHYSICAL BENEFITS

When it comes to treating sore muscle aches and relieve physical fatigue, no other spa manufacturer comes close to Lovia. Our spa seats, lounge strategically placed and varied jets produce energized streams of rhythmic pressure for best massage and treatment. All HSPA hot tub molds can deliver a full-body massage simply by moving from seat to seat.

Water buoyancy greatly relieves joints and muscles with constant pressure. According to the Arthritis Foundation, "Doctors often advise soaking warm water before your daily activities to help relieve the pain." Additionally, Warm water temporarily relieves stiffness and aches, increasing flexibility.

The heart of your home resort is the Hot-tub. Each hot tub is ergonomically designed to hug the natural contours of your body and rehabilitate key stress areas like the neck, back and feet.

With a personal Home Resort you can build a private sanctuary away from stresses of the day. HSPA spa takes you away with luxury hydrotherapy and designed to complement your lifestyle at a remarkable value to match any budget. Create a constant source of entertainment that you can enjoy with loved ones as you listen to music, watch your favorite programs and share to each other.

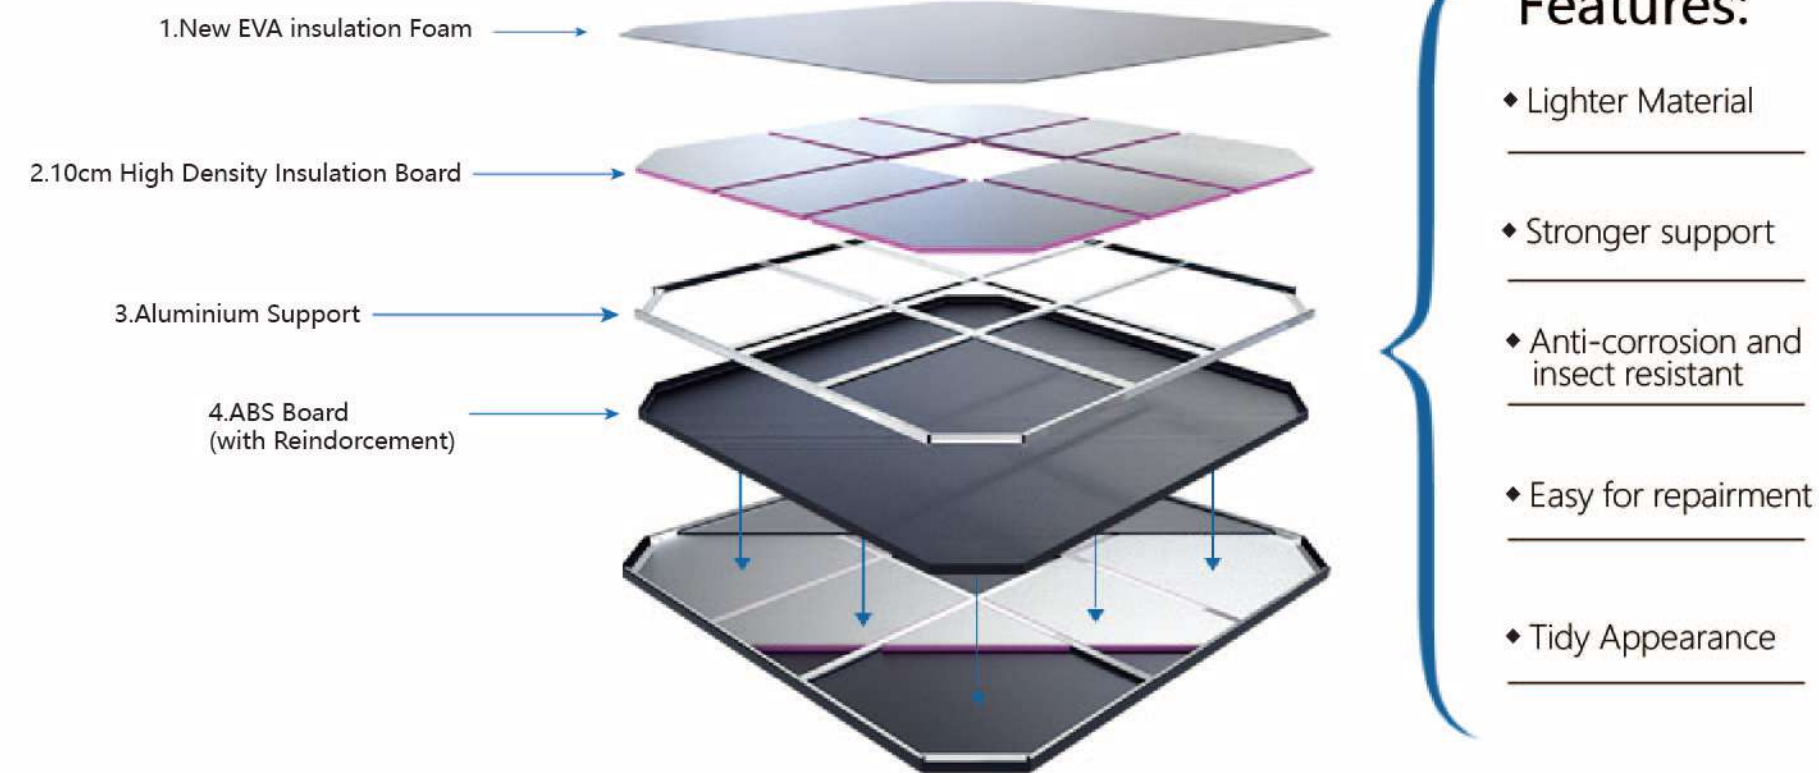

# ADVANTAGES OF LOVIA SPA

## ① HSPA crafts

All HSPA spa supported by full aluminium frame, each frame is constructed from a sturdy design of rails and cross-bracing which are secured by our experienced welder, as well as vertical support and angle bracing and all measurement of each aluminum rail have strict requirements to ensure spa shell precisely attached and appliances can be installed correctly and future maintainence.

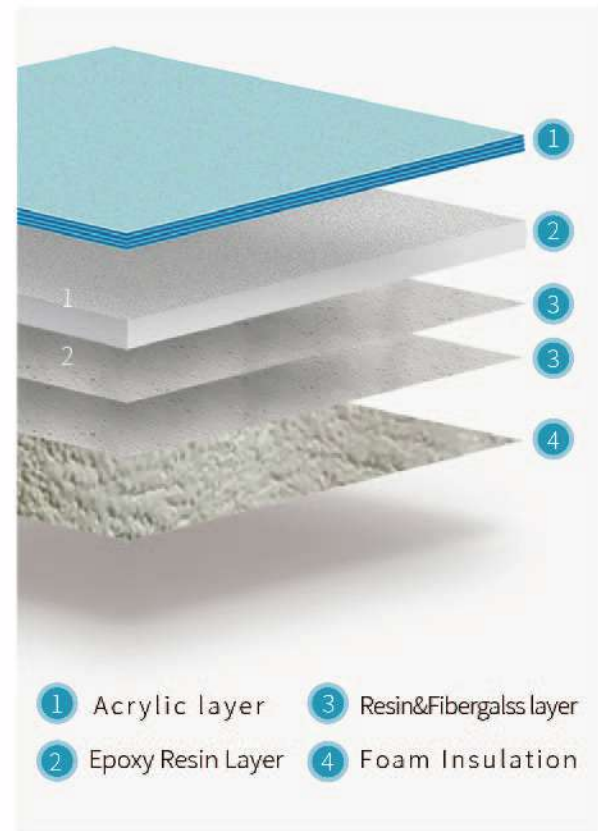

## ② HSPA Spa New ABS Base with Aluminium support inside

### 3 ECO-FRIENDLY Spas Greener Lifestyle

Each HSPA Spas with thickened design, stronger thermal insulation. The cylinder is not easily deformed, sturdy and durable.

HSPA spas are the most energy efficient spas on the market today, meaning substantially lower running costs than others.

#### Multiple Layers Shell Insulation

Unique 4 times 4 layers shell reinforcement technology, totally insulating every model with multiple layers of high density, Resin, Fiberglass and polyurethane foam, which reduce heat loss to a minimum.

### 4 Save Money With HSPA Energy Efficient Hot Tub

#### Full XPS Insulation Foam Base

Built with 2cm XPS thermal insulation board and Aluminum foil, full foam design insulates the spa completely to prevent heat escape, even in the coldest climate.

#### Full XPS Insulation Foam Cabinet Skirt

2cm XPS thermal insulation board surrounding the whole skirt Or 2cm XPS board with Aluminum foil combination for PS skirt, energy-efficient features that simultaneously provide you with lower operating costs and the best value over time.

#### Well-insulated Cover

100mm~140mm thick covers to ensure a custom-fit and tight seal to lock in warm air, a dense foam core with a high R-value for insulation, also features locking clips for safely securing your spa when not in use and protecting it from wind or extreme weather.

⑤ Variety of new customized skirt cabinet and corner fashion but comfortable simple with light luxury, that is your dream backyard spa

# LIGHTING

## LED-Lighting

These dramatic water fixtures create a tropical environment,transporting you to the exotic paradise of your imagination. Waterfalls come in classic cascade or vertical fountain styles and are specific to each series.LED lighting options also enhance the look and feel of any waterfall.Years of technical experience have enabled us to build better products.

## Entertain in style

Take your spa experience beyond hydrotherapy and treat yoursenses to the fines tentertainment available.

For your evening spa soaks,LED lighting options can be found along the top perimeter of the spain the-form of topside lighting and illuminated, valves and logos on some spas.Best of all,LED lighting can be programmed to alternate between each color on the color wheel or shine a particular hue to match your mood.

# CLEANING SYSTEM

## Circulation disinfection system

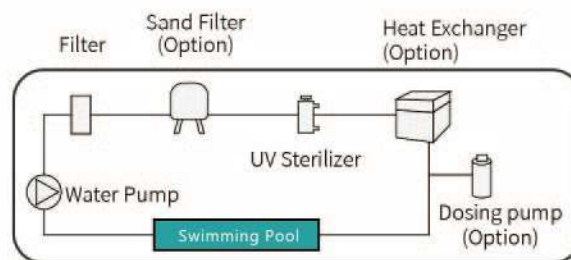

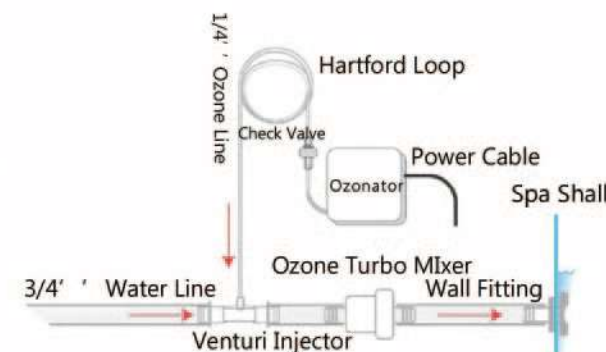

### Updated configuration in 2022

#### UV+Ozone combination system

##### Advantages of ultraviolet light:

1. Can eliminate 99.99% of harmful bacteria
2. No secondary pollution
3. Low operation cost, simple operation and maintenance.

Ozone is a naturally occurring substance in the Earth's atmosphere and features several purification qualities that have been used to clean air and water for centuries. Ozone is an important element of any clean water plan and is essential to keep your spa water clean and pure for you and your family. The gentle properties of Ozone result in absolutely no damage to your spa or irritation to skin and eyes.

# FILTRING SYSTEM

## Self cleaning system

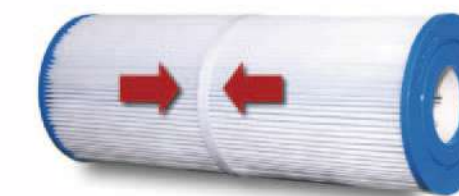

The tinted reinforced end caps is antibacterial and prevents the growth of bacteria and mold.

This protection greatly prolongs the life of the cartridge structure and works to inhibit odor and filter clogging, for a healthier filtration system. Our super-strong center cores are the best in the business.

HSPA uses the best polyester filtration. And its longer filter life and better water quality.

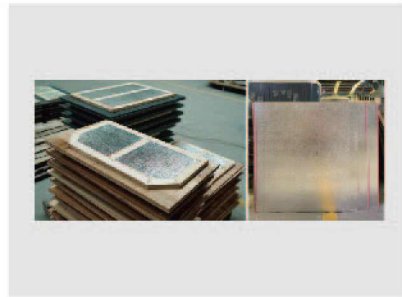

In fact, you can expect up to 33% better filtration than some other brands which may look the same. And our sharp pleat folds increase water flow rates while making cartridge cleaning easier.
